How can the AI Assistant help you?

**Omnis Environment
User interface**

Questions about:
Use
Settings
Orientation

**Code
Commands & Functions**

Help with:
Search
Explanation
Building
Debugging

How do you achieve the best possible result?
My tips for asking questions!!

01

Ask your question precisely!

What do you want to know?

What do you need it for?

What does the AI have to consider?

Use technical terms!

02

If the answer is wrong.

Rephrase your question!

Tell the AI where the error is!

*Take another good look at the answer!*
Look for Obvious Errors!

03

It's just a tool!

Understand the limits!

Integrate it sensibly!

Use your judgment!
